Angelic Designs Design & Print Policy:

Angelic Designs is a design studio that offers a wide range of services for customers such as logo design, project and software consulting, advertising design, corporate identity products like stationery, business cards, and newsletters; digital full color projects, and much more.

We specialize in full color design and provide regular full color & spot color printing, and raised print thermography that will complement our customers projects. We will work with customers to design projects and then send final digital art files to the printer of their choice or we prefer customers let us design and print for them.

We create estimates with printing and design cost separate for the customers convenience. Check out our full color pricing on-line.

Angelic Designs offers personal attention to detail on each product from initial project meeting to the free local pickup and delivery. We can also ship to where you are.

See our Terms of Service Agreement for more details.
